

March 17, 1983

LB 155

have been distributed to the membership.

SPEAKER NICHOL: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman, what version of LB 155 are we talking about, because the one that I have in my bill book doesn't show any of the amendments that I had offered and that were adopted.

CLERK: Senator, I think these amendments go to the first Final Reading version of the bill, because we never printed the second version of the bill.

SENATOR CHAMBERS: So then LB 155 is not eligible for Final Reading right now anyway, is it? Because the amended version is not here so putting it on Final Reading is improper, Mr. Chairman, I believe. It is causing confusion. I can't correlate what he is trying to do with the condition that the bill ought to be in so what I would ask the Chairman to do is pass over this bill because it shouldn't be on Final Reading anyway. There is no Final Reading version of 155 that can be considered today.
